CERTIFIED WEDDING COORDINATOR

Partial *Coordination*

For couples who have already started planning. We step in partway through to fill the gaps, keep everything on track, and carry it through to the wedding day — so you, your family, and your guests can be fully present for it.

01 Where You Are Now

You have made a start — often the venue and a few key vendors are booked. We review what is in place and build the plan forward from there.

- Review of your plans and bookings
- Planning check-ins as needed
- Vendor recommendations for what is unbooked
- Budget and timeline review

02 Bringing It Together

We take on the remaining details and become the single point of contact for your vendors.

- Full timeline development
- Vendor confirmations and introductions
- Final details and logistics confirmed
- One point of contact for every question

03 On the Wedding Day

Everything included in Day of Coordination, from setup to the last dance.

- Oversee setup of decor and details
- Run the rehearsal, if discussed
- Manage the timeline and vendors
- Handle the unexpected, quietly

04 Customization & Investment

Partial planning looks different for every couple, so it is priced individually based on where you are and what you need from us. We will put together a custom quote after our first conversation.

Ready to talk through your day?

Reach out and we will find a time for that first call.
